

Application No. 10/077,997  
Amendment dated May 6, 2005  
Reply to Office Action of December 6, 2004  
**Amendments to Specification**

Please add the following Page before the Detailed Description of Preferred Embodiments:

**Brief Description of the Figures**

FIG. 1 is a computer-generated image taken by the method of the present invention, in which facial slimming is measured.

FIG. 2 is an image of the eyes of a subject taken by the method of the present invention before and after application of a skin care composition, and a computer-generated measurement of the eye opening area.

FIG. 3 is computer-generated image taken by the method of the present invention where the images are utilized to demonstrate facial cheek slimming, fuller lips, lifting and reduction of forehead wrinkles, and improvements around the mouth.

FIG. 4 is a computer-generated image of a portion of a facial cheek image taken utilizing the method of the present invention before and after application of a skin care composition, where the image illustrates changes to the cheek surface.

FIG. 5 is a photo of the equipment utilized in the method of the present invention.
